

The Revolutionary Logic of the Iranian Regime

written by Dr. Raphael BenLevi | 19.07.2026

Dr. Raphael Ben Levi analyzes the strategic conflict between Israel, the United States, and Iran, arguing that the Iranian regime utilizes diplomacy only as a tactical tool to advance its revolutionary goals and regional dominance.

He also discusses the shift toward military force and “maximum pressure” to degrade Iran’s nuclear aspirations and missile threats, particularly as diplomatic efforts have failed to achieve a genuine state of coexistence.

The full interview was conducted by IANS on July 16, 2026.
