I expects Israel to strike Iran’s nuclear sites

Brig. Gen. (res.) Yossi Kuperwasser: I expects Israel to strike Iranian nuclear sites in one of its “rounds” of attacks against Iran. Not only do I expect that, but I expect the international community to support us.

I believe this is true, because everybody has to understand this is not going to be a one-time attack by Israel.

Given Israel will be launching multiple rounds of attacks against Iran, we have to make sure the Americans know we are attentive to their concerns about wide-scale regional war.

The nuclear sites will have to be dealt with in the next round, if it’s not going to be dealt with this round.
