

'Israel must reorganize presence on Golan Heights'

written by Brig. Gen. (res.) Yossi Kuperwasser | 09.12.2024

Brig. Gen. (res.) Yossi Kuperwasser: The logic standing behind the establishment of the Pereh Unit is to enable significant improvement of the area defense in the Golan Heights, on the basis of quality reserve personnel residing in the region, and this under the area division [Division 210]."

This is part of the drawing of lessons from the October 7 attack, during which there was a significant shortage of skilled fighters mainly in the first hours, and the transition from routine to emergency was very problematic.
