written by Misgav Institute | 02.07.2025

In this episode of Mideast Horizons, hosts Lahav Harkov and Asher Fredman interview Reverend Dr. Johnnie Moore, Executive Chairman of the Gaza Humanitarian Foundation. He discusses the GHF's mission to feed and support Gazans by ensuring aid is not diverted by Hamas. Rev. Moore reveals that the GHF successfully delivered over 50 million meals in its first month, without a single aid truck diverted—an unprecedented achievement despite facing severe threats, terror, and misinformation campaigns by Hamas, the UN, and international aid groups. Rev. Moore also shares insights from his recent two-and-a-half-hour meeting with the new Syrian President, and discusses the future of the Abraham Accords and Evangelical support for Israel.
