# Hamas’s Sadistic Psychological Warfare

written by Arsen Ostrovsky | 11.02.2025

Arsen Ostrovsky: There are truly no limits to Hamas’s depravity, cruelty, and sheer evil. They spare no one—from Holocaust survivor Shlomo Mansour, whom they kidnapped and murdered, to the youngest victims, including a nine-month-old baby, as well as women and the elderly. No one is spared from their barbarity.

We should take President Trump at his word. Even before his election, he was very clear that if Hamas does not release all the hostages—not just the American ones, but all of them—there will be consequences.

The interview took place on Sky News Australia, on February 11, 2025.
