

The UN's Anti-Israel Ecosystem: Exposing the Machinery

written by Misgav Institute | 13.10.2026

A special webinar marking the publication of a major new Misgav Institute report, featuring distinguished guests.

As we mark three years since the October 7 massacre, a new report exposes the UN's role as a central driver of the global delegitimization campaign against Israel.

Mapping more than 30 UN mechanisms, the report offers an inside look at how the UN has systematically advanced anti-Israel demonization since October 7.

Join us for a special discussion with leading international voices confronting anti-Israel bias at the UN. We will explore how this ecosystem operates – and what Israel, the United States, and civil society organizations can do to counter it.

Featuring:

Hillel Neuer, Executive Director, UN Watch

Dan Mariaschin, Honorary CEO and Senior Advisor, B'nai B'rith

Michal Cotler-Wunsh, CEO, International Legal Forum

Moderator: Dr. Adi Schwartz, Research Director at the Misgav Institute and co-author of the report
